Increase the minimum corporate tax that large corporations must pay no matter how many tax breaks they claim from \$50 to \$500 (73% of Arizona corporations currently pay \$50 or less in state income taxes).

Establish one formula for determining how multistate corporate income is taxed rather than allowing corporations to choose the formula which results in paying the least (Arizona is the only state in the country that allows this).

Repeal the special tax treatment individual taxpayers receive on long-term capital gains which an analysis shows that 83 percent of the benefits of this tax break went to the top 5 percent of wealthiest incomes in Arizona.

Requiring a sunset date for all new tax credits and sales tax exemptions to require the legislature to review each tax break every five years to evaluate whether Arizona is receiving the desired return-on-investment for the tax giveaway.

Q4 The effects of discrimination against Black, Latino and American Indians have lingered and manifested as racial inequalities in Arizona's economy today. What steps would you take as a state lawmaker to create a more racially equitable and inclusive economy? (500 words or less)

Answer: We have to address the discrimination in the capital markets that have traditionally held back business development in Black, Latino and Native American communities. Government should take the lead in developing programs to encourage capital investment and mentoring for business owners. One specific option is the creation of community banks which would issue competitive loans to BLAI business owners which are backed by the State. These owners would also be given additional business development assistance to help them succeed.

Q5 Please share what your priorities will be as a state lawmaker to strengthen Arizona's workforce and economy so that all Arizonans have better opportunities to move up the economic ladder? (500 words or less)

Answer: We must address the income/opportunity gap in our public education system. My priorities have been and will remain; funding public education with a stable and protected funding source, continuing the struggle to provide access to affordable healthcare and access to jobs that pay a livable wage.
