Q3

The COVID-19 pandemic has created an economic crisis with many Arizonans losing their jobs or dealing with a reduction in income. What strategies would you support to help Arizona workers and families recover from this economic crisis?

None of the above,

Other (please specify):

Open the state back up where we were previously experiencing a phenomenal economy and some of the lowest unemployment rates for not just Arizonians, but minority populations as well. The immuno-compromised need to take COVID-19 seriously. For those with strong immune systems, the virus is managable.

Q4

When the new legislature convenes in January, it is very likely lawmakers will be facing a significant revenue shortfall in order to maintain current ongoing funding of state government. If that is the case, would you support raising new revenue by raising taxes or reversing past tax cuts – like previous tax cuts for corporations or the wealthy – in order to avoid making budget cuts to things like public education, healthcare and other priorities?

No,

Other (please specify):

I do not support raising taxes or reversing any tax cuts. Let's stimulate economic growth and that will cover the shortfall.

Q5

Which of the following do you support to create a fairer tax code for all Arizonans?

Establish one formula for determining how multistate corporate income is taxed rather than allowing corporations to choose the formula which results in paying the least (Arizona is the only state in the country that allows this).

,
Other (please specify):

My preferred answer is "none of the above" but the survey forced me to pick one.

Q6

The effects of discrimination against Black, Latino and American Indians have lingered and manifested as racial inequalities in Arizona's economy today. What steps would you take as a state lawmaker to create a more racially equitable and inclusive economy? (500 words or less)

I have not personally discriminated on any of the above mentioned. This is the United States of America. Let's empower everyone to be and do their absolute best. Not rely on the government but instead rely on their own personal best in everything one does.

Q7

Please share what your priorities will be as a state lawmaker to strengthen Arizona's workforce and economy so that all Arizonans have better opportunities to move up the economic ladder? (500 words or less)

Again, a person needs to want to move up the economic ladder. Provide lower cost higher education/trade training programs for those who are ready, willing and able. I recognize that not everyone is motivated. Let's reward those who are and work hard for it.
