When the new legislature convenes in January, it is very likely lawmakers will be facing a significant revenue shortfall in order to maintain current ongoing funding of state government. If that is the case, would you support raising new revenue by raising taxes or reversing past tax cuts – like previous tax cuts for corporations or the wealthy – in order to avoid making budget cuts to things like public education, healthcare and other priorities?

**Q5**

Which of the following do you support to create a fairer tax code for all Arizonans?

**Repealing targeted, special interest sales tax exemptions for certain luxury items like country club memberships, fine art to out of state purchasers, and private jets.**

,

**Enable legislators to evaluate whether tax credits are providing the desired return on investment by requiring corporations who claim tax credits to provide sufficient information on the jobs and economic benefits they are providing in exchange for the tax credit.**

,

**Increase the minimum corporate tax that large corporations must pay no matter how many tax breaks they claim from \$50 to \$500 (73% of Arizona corporations currently pay \$50 or less in state income taxes).**

,

**Establish one formula for determining how multistate corporate income is taxed rather than allowing corporations to choose the formula which results in paying the least (Arizona is the only state in the country that allows this).**

,

**Repeal the special tax treatment individual taxpayers receive on long-term capital gains which an analysis shows that 83 percent of the benefits of this tax break went to the top 5 percent of wealthiest incomes in Arizona.**

,

**Requiring a sunset date for all new tax credits and sales tax exemptions to require the legislature to review each tax break every five years to evaluate whether Arizona is receiving the desired return-on-investment for the tax giveaway.**

**Q6**
